

What would you do if you **LOST** all of your valuable pictures, movies and documents?

There are viruses on the Internet today that affect companies and home users causing them to completely lose all of their important files.

PROTECT YOURSELF

- Backup your files daily
- Don't click on links or attachments from unknown sources.
- Avoid hovering over or clicking on ads in websites – even reputable sites.
- Use a browser add-on such as Disconnect.me for added protection.

Warranty Disclaimer: The FBI, InfraGard, and its affiliates provide information, including but not limited to software, documentation, training, and other guidance to be known as "materials". The materials are provided as-is and we expressly disclaim any and all warranties, express or implied, including, and without limitation, the implied warranties of merchantability, fitness for a particular purpose, non-infringement, quiet enjoyment, and integration, and warranties arising out of course of dealing or usage of trade. You agree that, as between you and the FBI, InfraGard, and its affiliates, you are responsible for the outcome of the use of materials made available, including but not limited to adherence to licensing requirements, and taking legal and regulatory considerations into account. There is no guarantee of accuracy, completeness, timeliness, or correct sequencing of the information provided.
